Training rooms

Our KEC offers modern, multifunctional spaces for training that perfectly combine practice and theory.

Refreshments are also served to our guests. Moreover, we end the day with a common dinner in a pleasant atmosphere.

All our trainings take place directly at our headquarters in Rheine.

Registration and infos

Please direct your registration to
training@ktr.com

specifying the following details:
Description of training along with the date, the participant's first name and surname, phone number and e-mail address, invoice address.

Confirmation of registration and invoice
We will confirm receipt of your registration by e-mail. The invoice will be sent by mail. For each date only a limited number of participants is available. Registrations will be considered after receipt.

The seminar charges include the following:
→ Participation in the seminar
→ Catering during the day
→ Overnight stay with breakfast
→ Dinner
→ Training documentation
→ Certificate

Seminar documents
After the training, you will receive all materials directly by email from our trainer team.

Cancellation and cancellation of events
Cancellation is free of charge up to 30 days before the event, after which the full participation fee will be charged. Substitute participants can of course be named. We reserve the right to cancel events for organisational reasons. In this case, the costs will be refunded.

KTR TrainingsCenter

BASIC TRAINING

PROFI TRAINING

Preface

The KTR TrainigsCenter – Your Competence Center for Modern Drive Technology.

Whether you are a dealer, customer, sales representative or technician – our seminar program is designed for everyone who wants to expand or deepen their knowledge.

Our KTR experts share practical know-how in the fields of mechanical couplings, hydraulic components, braking and cooling systems. True to our motto "From practice for practice", you will learn through real-life examples and hands-on exercises – ensuring confidence in working with state-of-the-art drive technology.

"Knowledge – the only asset that grows when shared." This quote by Marie von Ebner-Eschenbach is our guiding principle: We share our expertise with you – in seminars, in dialogue with specialists, and in a learning environment that inspires.

Good service providers and employees require good education and advanced training.

The training range

	BASIC TRAINING	PROFI TRAINING
Target group	Drive technology is a relatively new field of work for you and you want to build a solid foundation in this subject area.	You have a solid basic knowledge of engineering and want to develop your competence in Power Transmission.
Your competence	You acquire the basics of drive technology and learn its key parameters.	You have advisory discussions with customers independently giving recommendations for products.
Contents	→ Physical fundamentals of drive technology → Introduction to the KTR product portfolio → KTR tools: Easy access to information & configuration	**Comprehensive insight into the KTR product portfolio:** → Drive components → Hydraulic components → Brake systems → Cooling systems Selection, design and assembly Application areas & market environment
